### POSITION OVERVIEW

Are you looking for a great opportunity where your work will be both varied and challenging? Do you want to have significant organizational impact? We seek a talented software developer to join our team. You will design and build cutting-edge R & D software solutions that are integral to our next-generation instrumentation. You will also have critical responsibilities to creatively extend and interconnect existing internal business systems.

At IMCORP, you'll have the opportunity to expand and improve your skill sets in diverse areas. You'll be able to take training courses or otherwise improve your skill set during normal business hours. Our development environment has a laid back feeling, with business casual dress throughout the week, active lunchtime billiards games and friendly colleagues. We're conveniently located near major routes in a suburban setting with free parking. Our developers have modern workstations and a modest budget to customize their workstations or purchase peripherals they require. IMCORP is committed to making our developers as successful as possible, which is why executive leadership ensures the technical viability and stable funding of every project.

We'd prefer candidates who can work at our Manchester, CT, offices, but we're open to exploring fit with you if you're a remotely-based candidate who has terrific communication, team, and organizational skills, with a disciplined spirit of accountability. Wherever you're based, we'll value your documentation skills, motivation and ability to deliver results on schedule.

### REQUIREMENTS

- Solid skills in:
  - MySQL
  - .NET (MVC, Web API, EF, LINQ)
  - JavaScript
  - Node.js
  - jQuery
  - Socket.IO

- Meaningful experience with:

### ABOUT IMCORP

IMCORP is the technology leader in underground power cable reliability. Our diagnostic technology locates existing cable system defects and determines future cable reliability. This performance-driven solution provides the most effective and efficient means to determine the reliability of new or aged cable systems. IMCORP [Factory Grade®](#) technology has enabled rapid growth across industries around the world. From single phase 5kV to 500kV, IMCORP is setting the standard in power cable reliability.

IMCORP is an equal opportunity employer and considers qualified applicants for employment without regard to race, color, creed, religion, national origin, sex, sexual orientation, gender identity and expression, age, disability, or Vietnam era, or other eligible veteran status, or any other protected factor.

Qualified military veterans welcome.
