POSITION OVERVIEW

When we name our company values, safety comes first. Bring your expertise and passion for comprehensive safety in the world of electric power distribution to our company, where we're committed to excellence and results. Champion a culture of safety in a company that will respect your knowledge and leadership.

This position is based in the Manchester, CT, or Houston, TX, area

REQUIREMENTS

- Associate's degree or equivalent in safety, health, environment or related field
- Bachelor's degree in related field preferred
- At least six years progressively responsible experience as safety professional
- At least four years experience as safety professional in utility T&D construction and public works industry
- At least four years supervisory experience
- Safety certification a plus, especially Certified Utility Safety Professional (CUSP) or Certified Safety Professional (CSP) by the Board of Certified Safety Professionals (BCSP)
- Former line skills in overhead or underground a plus
- Availability for travel up to 70% of the time
- Permanent authorization to work in the U.S., with no current or future requirement of sponsorship

RESPONSIBILITIES

- Advise IMCORP, stakeholders and employees on safety, industrial hygiene, risk management and regulatory compliance

- Review and update policies, procedures, programs and reporting requirements to ensure all aspects of IMCORP safety programs are effectively managed and support the safety goals and objectives of the company
- Establishment of field testing and ancillary procedures that minimize variability and complacency tracked with accompanying six sigma based metrics.
- Provide management direction for major hazard assessments, safety/environmental policy development, comprehensive safety investigations/reviews, compliance safety audits, 6S performance, and comprehensive occupational safety/environmental management programs
- Administer and support our incident investigation process that facilitates identification of root causes, allows lessons learned to be shared across branches and results in the identification/implementation of corrective actions aimed at eliminating problems at the source
- Inspect workplaces for the presence of health/safety hazards and environmental concerns
- Evaluate workplace environments, equipment and practices for compliance with standards/regulations
- Administer IMCORP's 'Safety Certification' program
- Be accountable for safety record keeping, data integrity and timely accurate reporting
- Evaluate organizational performance, identify trends and facilitate an action plan to remedy all identified deficiencies
- Direct the development and delivery of effective safety training and education programs
- Exercise authority to suspend unsafe operations as necessary

TO APPLY

Please send resume to marcia.quzy@imcorp.com.

ABOUT IMCORP

IMCORP is the technology leader in underground power cable reliability. Our diagnostic technology locates existing cable system defects and determines future cable reliability. This performance-driven solution provides the most effective and efficient means to determine the reliability of new or aged cable systems. The IMCORP Factory Grade[®] technology has enabled rapid growth across industries around the world. From single phase 5kV to 500kV, IMCORP is setting the standard in power cable reliability.

IMCORP is an equal opportunity employer and considers qualified applicants for employment without regard to race, color, creed, religion, national origin, sex, sexual orientation, gender identity and expression, age, disability, or Vietnam era, or other eligible veteran status, or any other protected factor.

Qualified military veterans welcome.
